Art & Design

Here at St.Wilfrids' we teach Art & Design through the learning challenge curriculum. We make sure that appropriate skills are taught in every year group and a range of media, styles and approaches to art are implemented.

Children learn about significant artists and designers and respond to their work using their own creativity. We want to encourage children to enjoy art, be creative and develop not only their artistic skills but their imaginations too.

Art and Design is part of a broad and balanced curriculum which aims to help develop our children's life skills and knowledge for the future.
