

## YEAR 6 SUMMER TERM NEWSLETTER

Hi Year 6 and families,

I hope everyone is well and making the most of lockdown. It certainly is a strange time for everyone! It is great to see that people are using Bug Club, TT Rockstars, Purple Mash and Education City and is important to keep up these basic skills - little and often is very effective. I know that year 6 were getting pretty good at using their initiative when it comes to self-learning and overcoming problems and I hope you are all continuing to keep that up.

As well as the online programmes that the school provides, there are also a few other great websites that can make online learning easy. Particularly BBC Bitesize daily lessons;

<https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-and-p7-lessons/1> ;

which includes online video lessons, interactive activities and worksheets for English, Maths and a foundation subject each day.

So year 6, we are going to set Gold Challenges that I want everyone to have a go at and then for extra points there will be Platinum Challenges.

### **Gold Challenges**

- Spend 10 minutes on TT Rockstars - try and beat your last score and take part in a battle.
- Complete today's maths lesson on BBC bitesize daily lessons.
- Complete English 1 in classwork on Education City.
- Spend 20 minutes reading on Bug Club.
- Find out about similarities and differences between The Egyptians and The Mayans.
- Read about light on the year 6 class page.

### **Platinum Challenges**

- Invent a 2 player maths game that uses fractions.
- Write an adventure story about a boy/girl who travels back to either the Egyptian or Maya times.
- Create an invention that has something to do with light.
- Produce a piece of artwork using things from nature.

The gold challenges will keep up your skills and the platinum challenges will enhance them further. But also follow your own interests and let us know of anything else you do such as learning a new skill- like juggling, beating your personal best for kick ups, cooking a meal for your family, producing a music video on youtube.com or creating a vaccine for Coronavirus. Whatever you are up to we would love to know. You can send photos or examples of work you have produced to [infoatstwilfrids@gmail.com](mailto:infoatstwilfrids@gmail.com) or use this if you have any questions at all.

Most importantly stay safe and take care.

Mr Coats and Mrs Instone
